

The Arab Style – Website Rebuild

Each page below includes full SEO meta tags (title, description, keywords, canonical) and Open Graph tags. We provide a `robots.txt` and `sitemap.xml` for Google Search Console, plus JSON-LD structured data: a site-wide WebSite schema (`schema-website.json`) and a VideoObject schema on each video page ¹ ² . The design uses a header/footer with contact info, a dark/light mode toggle (`js/main.js` and CSS transitions), and is mobile-responsive. Meta titles and descriptions are concise and keyword-rich for SEO ³ .
